FEEDING DIRECTIONS

Blueprint® Seedstock Developer 14 is designed to be hand-fed with medium-quality forages. Concentrates can be added for programs pursuing higher average daily gains. A target intake of 1% of body weight is recommended. Feed no more than 15 pounds per head per day of this product to supply the maximum amount of 3 milligrams of added selenium per head per day.

Always provide free access to fresh, clean water.

CAUTION

This product, which contains added copper, should not be fed to sheep or related species that have a low tolerance to copper. This product has been formulated specifically for beef cattle and is not intended for other species.

Follow label directions. Adding higher-than-recommended levels of this supplement to feed containing added selenium is not advisable.

Hubbard Feeds does not use restricted-use proteins in products and follows both FDA and state requirements regarding the use, handling and storage of restricted-use proteins.
